

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

March 16 through 31, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **March 16 through 31, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Dust your refrigerator. Vacuum the dust off the refrigerator coils (found in the back or underneath the unit) every 3 months – it takes less energy to cool that way. Turn on the energy saver switch, if you have one. Check the gaskets around the door and make sure it shuts tight.

Federal Notices

| |
|--|
| <u>Intergovernmental Review Notices (March 15 - 31, 2001)</u> |
|--|

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Department of the Interior - U.S. Fish & Wildlife Service

CONTACT: Stephanie Brady

TELEPHONE: (916) 414-6600

E-MAIL: N/A

ADDRESS: Department of the Interior-U.S. Fish & Wildlife Service, 2800 Cottage Way, Room W2605, Sacramento, CA 95825

DESCRIPTION: The U.S. Fish & Wildlife Service (FWS), under the authority of the Endangered Species Act (ESA) of 1973, as amended, has recently proposed to remove Hoover's woolly-star from the list of endangered and threatened plants. This proposal was published in the Federal Register (66 FR 13474-13480). Hoover's woolly-star is an annual herb in the phlox family with gray fuzzy stems and tiny white pale blue flowers, which are nearly hidden in tufts of wool-like hair. In the San Joaquin Valley, populations of this plant are found along the hilly margins of the valley, at elevations between 300 and 3,000 feet. Hoover's woolly-star is a California native plant that has been protected by the ESA since 1990. The FWS is proposing to delist the Hoover's woolly-star because they have concluded that the plant no longer needs protection under the ESA.

COMMENT BY: April 20, 2001

AGENCY: Federal Energy Regulatory Commission

CONTACT: Timothy Welch

TELEPHONE: (202) 219-2666

E-MAIL: Timothy.welch@ferc.fed.us

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

DESCRIPTION: The FERC filed a Notice of Amendment of License and Soliciting Comments, Motions to Intervene, and Protests on March 12, 2001 for Drum-Spaulding Hydroelectric Project (project). The project is located on the Rock Creek Dam and Reservoir, Placer County, near the intersection of Bell Road and Highway 49, about 4 miles north of Auburn. Portions of the project occupy federal lands managed by the U.S. Forest Service. The project applicant is Pacific Gas & Electric (PG&E). To improve the safety of Rock Creek Dam, PG&E proposes to improve spillway capacity to eliminate potential overtopping of the dam under the Probably Maximum Flood design flood.

Washington, DC 20426

DESCRIPTION: The FERC is holding a public meeting to discuss alternatives for processing the application for relicensing of the El Dorado Project, FERC No.184. The El Dorado Project, licensed to the El Dorado Irrigation District, is located on the South Fork American River, in El Dorado, Alpine, and Amador counties, including lands of the El Dorado National Forest. The meeting will be held Tuesday, April 3, from 9 a.m. to 4 p.m. at the Sacramento Superior Court Annex, Second Floor, 721 Ninth Street, Sacramento.

Washington, DC 20426

DESCRIPTION: FERC dismissed the request by California Trout to contest the Commission's issuance of an annual license for the Santa Ana River Project, FERC No.1933. Under Section 401 of the Clean Water Act, the licensee is required to first obtain a water quality certification, which was not done in this case. The 6.3-megawatt project is located on the Santa Ana River and its tributaries in San Bernardino, California, and partly occupies lands of the United States. Commissioners Curt Hebert, Jr., William L. Massey, and Linda Breathitt denied the petition of July 21, 2000 that seeks revocation of the annual license for the project.

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE,
Washington, DC 20426

DESCRIPTION: Edward Navickis filed a Preliminary Permit Application pursuant to the Federal Power Act with the FERC for the Bear River Canal Power Project. The project would consist of an intake structure adjacent to the canal with an invert elevation of 1,760 feet, a 200-foot-long, 72-inch-diameter buried penstock, a powerhouse containing a generating unit with an installed capacity of 600 kilowatts, a 200 foot-long, 12 kilovolt transmission line, and appurtenant facilities. This project would produce 3.78GWh annually that could be sold to Pacific Gas & Electric or another power distributor.

Washington, DC 20426

DESCRIPTION: On January 12, 2000, Southern California Edison (SCE) filed an application with the FERC to renew its license for the Lower Tule River Hydroelectric Project, FERC No.372. The project is located on the Tule River in Tulare County, California. SCE is also requesting Commission approval to delete a non-jurisdictional transmission line and telephone line from the project's license. The Commission approved this application along with revised exhibits submitted by SCE.

COMMENT BY: N/A

AGENCY: United States Navy

CONTACT: Mike McClelland

TELEPHONE: (619) 532-0965

E-MAIL: N/A

ADDRESS: Navy BRAC Environmental Coordinator, Southwest Division Naval Facilities Engineering Command, 1230 Columbia Street, Suite 1100, San Diego, CA 92101-8517

DESCRIPTION: The Department of the Navy in participation with the California Environmental Protection Agency and Department of Toxic Substances Control (DTSC) requests comments on a Proposed Plan and draft Remedial Action Plan/Record of Decision (RAP/ROD) on the soil remediation at Installation Restoration Site 02, Alameda Facility/Alameda Annex in Alameda, California. The agencies agree that without excavation of contaminated soil, the polychlorinated biphenyls (PCB) and cadmium in the surface soil could pose an unacceptable risk to human health. The Navy's proposed plan is off-site disposal of contaminated soil in a permitted landfill and land use controls. DTSC has determined that the activities proposed in the draft RAP/ROD will not have an adverse impact on public health or the environment and is proposing a Negative Declaration for the project.

| 1998071061 | Weston Ranch Suncal Tentative Map Project, Phase 5 Stockton, City of Stockton--San Joaquin Approve a tentative map to subdivide a 1.28-acre parcel into two parcels for property located at the southeast corner of Carolyn Weston Boulevard and Manthey Road. | NOD | |
| 2000032063 | Rancho Carbonera Subdivision (File 97-279) Santa Cruz, City of Santa Cruz--Santa Cruz This project is located at 550 El Rancho Drive on Carbonera Creek, tributary to San Lorenzo River, Section 1, Township 11S, Range 2W, in the City of Santa Cruz, County of Santa Cruz. The creek has been impacted by urbanization such as increased storm water flows into the creek due to impervious surfaces. The project consists of constructing a storm water outlet from a subdivision to be constructed in the summer of 2001. The outlet was redesigned from a Reno mattress (original application) to an outfall riser placed above the two and a half year storm event. The outfall pipe shall be placed above the ground, except for the road crossing, and properly secured to the bank to withstand a 100 year flood. The storm water detention area was also redesigned to detain a 100 year storm versus a 25 year storm. The redesign will minimize storm water impacts and the area of impact. The CDFG is executing a Lake and Streambed Alteration Agreement #R3-2000-1196 pursuant to Section 1603 of the Fish and Game Code to the project Operator, Steve Benedum. | NOD | |
| 2000072052 | Distribution Warehouse Building Richmond, City of Richmond--Contra Costa Construct a 69,888 square feet concrete tilt-up warehouse. | | pump and pipeline. Electrical power service will be cultivated and seeded with pasture mixtures similar to that used on other ranches in the area. The soils may be amended with the application of biosolids from the Regional Wastewater Plant in Sonora. | | |
| 2001039018 | Issuance of Streambed Alteration Agreement R2-572-00 Fish & Game Commission --Amador The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-572-00 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Ron Matulich representing Horseshoe a Mining Company. | NOD | |
| 2001039019 | Spring Creek Oaks Storm Drain Outfall Fish & Game #2 --San Joaquin The California Department of Fish and Game is executing Lake and Streambed Alteration Agreement #R2-607-00 pursuant to Section 1601 of the Fish and Game Code to the project applicant, Gerald Barton of Ripon. The agreement pertains to construction of a storm drain outlet structure through the levee into the Stanislaus River floodplain for the Spring Creek Oaks subdivision and future Murphy Road development. The pipeline will require excavation, trenching and backfilling up to the outfall. The concrete outfall structure will include placement of rip-rap to dissipate flow. | NOD | |
| 2001039020 | Site and Architectural Review No. 2000-5 Milgard Manufacturing Fish & Game #3 Hollister--San Benito This project is located at the north end of Bert Drive in the Hollister Business Park on Santa Ana Creek, Assessor's Parcel Number # 51-14-17, County of San Benito. The project consists of the installation of 21 inch and 18 inch diameter storm drain outfalls in the existing bank of the creek. These storm drain outfalls are designed to carry runoff from two separate parking areas that have been built for a new 172,448 square foot industrial building. A total of approximately 40 square feet of rip-rap will be placed on the creek bank around the storm drain outfalls. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number #R3-2000-1157 pursuant to Section 1603 of the Fish and Game Code to the project Operator, Tony Kubik/Milgard Family Limited Partnership. | NOD | |

| 2001038247 | <p>Readoption of Emergency Regulations for Certified Unified Program Agency (CUPA) Single Fee Surcharge for Oversight Costs (R-00-06) Environmental Protection Agency, California</p> <p>--</p> <p>This project consists of emergency regulations entitled "CUPA Oversight and Program Management Costs" that proposes to amend Title 27, California Code of Regulations, Article 5, section 15240. The proposed regulations delineate the authority of the Secretary of Environmental Protection (the Secretary) to establish and expend the Unified Hazardous Materials Management Regulatory Program. (Unified Program) State surcharge bases on the current needs of the Unified Program. The amendments in these proposed regulations are also consistent with Assembly Bill (AB) 2872 (Chapter 144, Statutes of 2000). AB 2872 provides the Secretary with the authority to set the State surcharge and expend the funds to cover the necessary and reasonable costs of all State agencies implementing the Unified Program, rather than previous law, which only allowed surcharge funds to be spent on limited, specified subset of the State agencies with Unified Program responsibilities. The proposed regulations will also eliminate requirements for the preliminary and the final surcharge and allow the Secretary to establish and adopt the State surcharge as necessary, but no more than once a year, after a 30 day comment period and a 60 day implementation period.</p> | NOE | |

| 2001032088 | San Francisco Transbay Terminal/Caltrain Downtown Extension Project (City Project No. 2000.048E) San Francisco, City and County of San Francisco--San Francisco The EIS/EIR will review the environmental impacts of and options to: 1. Provide a new, reconstructed Transbay Terminal, to serve as a multi-modal transit/transportation facility that incorporates the principles of sustainability and environmental responsibility at the site of the current Transbay Terminal at First and Mission Streets in downtown San Francisco, 2. Extend Caltrain commuter rail service from its current San Francisco terminus at 4th and Townsend to a new underground terminus underneath or near the proposed rebuilt Transbay Terminal. The EIS/EIR will also review establishment of a redevelopment plan and related development projects, including transit-oriented development, on publicly-owned land in the vicinity of the new multi-modal facility. The plan and related development are intended to assist in financing of the transportation improvements. | NOP | 04/17/2001 |

Total height of the proposed project will be 185'. Project includes nine panel antennas located 145' above the ground, a 4' microwave dish 100' above the ground, and 24"x20"x12" deep equipment cabinet. No special paint color or lights are anticipated for the tower. The existing tower is co-located within seven (7) microwave dishes and five (5) whip antennas. Cal-North Cellular uses approximately 15,080 square feet of the 10 acre parcel for the existing communication tower and equipment buildings, and the remainder is used for agricultural grazing. The parcel is developed with two single family residences and residential/agricultural accessory structures. NOTE: Project is not located in the coastal zone. | Neg | 04/18/2001 |
| 2001032097 | Horn Final Map Subdivision Humboldt County Planning Department --Humboldt Subdivision of an approximate 78 acres into four parcels of approximately 5.43, 5.06, 5.35, and 5.45 acres and a remainder of 58.71 acres. The land is undeveloped. Homesites are proposed to be served by individual on-site sewage disposal systems. | Neg | 04/18/2001 |
| 2001032100 | Metroplex Office Complex Concord, City of Concord--Contra Costa The project is a new Use Permit application upon the site of a previously approved Use Permit for an office complex, known as UP 1-90 that expires in January 2002. The Project Applicant has received continuous Time Extension approvals of the originating Use Permit. The Project Applicant now has modified the design of the original approval, and is proposing a two-phased office complex consisting of two towers totaling 474,500 square feet, and one nine-story parking garage. The project will be located on a 5.17 acre parcel at the northeast corner of Willow Pass Road and Waterworld Parkway, at 1401 Willow Pass Road. APN 126-300-045. The project is known as the "Metroplex Project" Use Permit UP 4-01. | Neg | 04/18/2001 |

| <u>Documents Received on Tuesday, March 20, 2001</u> | | | |
| 1993023038 | Water Supply and Transmission System Plan Sonoma County Water Agency The Sonoma County Water Agency Water Supply and Transmission System Project consists of three separate components which together would meet the project objective of providing a safe, economical, and reliable water supply to meet the defined future water supply needs in the Agency's service area. These three components are: 1) water conservation, which involves the implementation of water conservation measures that would result in the savings of approximately 6,600 acre-feet per year (AFY), and expansion of the water education program; 2) increased use of the Russian river (a combination of re-diversion of stored water and direct diversion of winter flow) by 26,000 AFY, thereby increasing the total amount of diversion from 75,000 to 101,000 AFY; and 3) expansion and revised operation of the existing transmission system which involves increasing the transmission system capacity by 57 million gallons per day (mgd), thereby increasing the total capacity of the transmission system from 92 to 149 mgd. | NOD | |
| 1997121066 | Sycamore Ranch Golf Course San Diego County Vacation, open space and road easements in association with the golf course and residential development south of Knottwood Way. | NOD | |
| 2000062079 | Eastside Aggregates Project Shasta County Burney--Shasta 1) A zone amendment to rezone approximately 24 acres of an approximate 343 acre parcel from the General Industrial (M) district to the Commercial-Light Industrial District (C-M) or the Commercial-Light Industrial district combined with the Design Review (C-M-D-R) zone district; 2) A use permit for a 7,000 square-foot truck repair shop, and for a 10,000 square-foot outdoor area for retail sales of landscaping materials and rentals of trailers used for hauling 1 1/4 cubic yards of mixed concrete; and 3) A use permit for a rock quarry, crushing and screening operation, concrete batch plant, and asphalt plant; and 4) A reclamation plan for approximately 85 acres of quarry and processing area on an approximate 343-acre parcel. | NOD | |
| 2000081095 | Heritage Valley Estates San Diego County, Department of Planning and Land Use --San Diego The proposed project is the subdivision of 31.3 acres into 10 residential parcels ranging in size from 1.1 to 7.1 acres gross. Fire service will be provided by Deer Springs Fire Protection District. Water will be provided by Valley Center Municipal Water District. All lots will be on septic. The project falls within the Escondido Union Elementary and High School Districts. Access will be taken from Rayford Drive. The project is subject to the (18) Multiple Rural Use Land Use Designation and the A70 Limited Agriculture Zone. | NOD | |
| 2001012022 | Gravel Mining in Red Bank Creek, Chase Gravel Fish & Game HQ Red Bluff--Tehama The CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, [Mr. Laverne | NOD | |

| | Chase representing himself]. The applicant proposes commercial gravel extraction of up to 5,000 cubic yards from Red Bank Creek, Tehama County. | | |
| 2001012103 | Lake Mary Bicycle Lanes and Off-Street Paths Mammoth Lakes, City of Mammoth Lakes--Mono The Town of Mammoth Lakes is developing a non-motorized trail system within its corporate boundary. Lake Mary Road has been identified as an on-street bike route in the Mammoth Lakes Trail System Plan and in the General Bikeway Plan. This project will consider the two alternative bike path locations described above to implement a grant to provide non-motorized circulation and access from Lake Mary Road at Minaret Road to the Horseshoe Lake parking lots within the Lakes Basin. | NOD | |
| 2001038258 | Remove Non-Native Scotch and French Broom Caltrans #2 --Shasta Remove the non-native Scotch and French broom (Cytisus) from both sides of the right of way along State Highway 299 from Buckhorn Summit to Rock Creek Road. | NOE | |
| 2001038259 | Maintenance Dredging at Emery Cove Marina Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Emeryville--Alameda Maintenance dredging of approximately 75,250 cubic yards of sediment, to a project depth of negative 8.5 feet mean lower low water, with a 1.5-foot overdredge allowance, with disposal of the dredged sediments at the Alacatzraz Dredged Material Disposal Site (SF-11) in San Francisco Bay. | NOE | |
| 2001038262 | Three-Year Variance to Tehama County Sites to Receive up to 55 Gallons Per Trip of Agricultural Used Oil from Qualified Generators-HHWVARO10201. Toxic Substances Control, Department of --Tehama Variance to Tehama County agricultural waste oil collection program. The variance is limited to the collection and transportation of up to 55 gallons per trip of waste oil from qualified Tehama County agricultural business. The collections provide appropriate means of disposing of hazardous waste. The variance is based on the evidence that: 1. Only generators participating in the agricultural oil collection program will be serviced under this variance; 2. The used oil is taken to an authorized facility; and 3. The oil transported is limited to up to 55 gallons in appropriate containers. | NOE | |
| 2001038263 | HHWVAR980401R - Variance for Novato Sanitary District's Conditionally Exempt Small Quantity Generators (CESQG) Program Toxic Substances Control, Department of Novato--Marin Variance for Novato Sanitary District's participating CESQGs from hazardous waste manifesting and transportation requirements. The collections provide appropriate and safe means of hazardous waste disposal. | NOE | |

| 2001031096 | Former Rockwell/Boeing Site Specific Plan Downey, City of Downey--Los Angeles Specific plan for a multiple-use development on the 140-acre former Rockwell/Boeing site in Downey. Proposed land use include a shopping center, offices, plus buildings designed to accommodate research and development activities. Together, the project's buildings will total a maximum of approximately 2.1 million square feet of floor area in three distinct land use areas. Area I encompasses slightly more than 33 acres and occupies the northern portion of the project site. A planned retail shopping center will occupy this area, and will be oriented toward Lakewood Boulevard. Other streets bordering Area I include Stewart & Gray Road and Bellflower Boulevard. The center will feature both inline stores and freestanding buildings. Together, the center's building will provide a maximum of 410,000 square feet, plus parking. Area II will total approximately 63 acres. It supports an existing building that contains 883,550 square feet, which both Rockwell and the Boeing Company used for aerospace manufacturing and testing purposes. The development proposal involves either reusing a portion of the building for motion picture studio or production. | NOP | 04/19/2001 |

| 2001031100 | Carmation Avenue Street End Enhancement Imperial Beach, City of Imperial Beach, Coronado--San Diego Beach Street end enhancement to include decorated pavement, pedestrian walkway, landscaping, benches, beach access stairway, one handicapped access parking space, soundwall and seawall. Includes an easement for the southern portion of the seawall and a 20 foot wide easement abutting Carnation Avenue right-of-way to the north. This easement is located on Navy property under jurisdiction of the City of Corondo. | Neg | 04/19/2001 |
| 2001031101 | Orange County Council Boy Scouts of America - Sea Base Expansion Newport Beach, City of Newport Beach--Orange The application is a request to permit the approval of a Use Permit (UP #3691) and Coastal Development Permit for the proposed Boy Scouts of America Sea Base Expansion. The project site is located at 1931 West Coast Highway on the south side of the Pacific Coast Highway between Newport Boulevard and Lower Newport Bay, adjacent to Lido Channel, in the City of Newport Beach. The existing Sea Base consists of 9,943 square feet of office space, classrooms, storage, and a duty house that is located on 1.18 acres. The project involves the demolition of the existing 1,785 sf duty house and 490 sf storage area. The new construction proposed includes a two-story structure for a rowing building (6,500 sf). The total building area will be increased from 9,943 sf to a total area of 22,060 sf with the proposed expansion. | Neg | 04/19/2001 |

| | floor), and the construction of a new business hotel on the same property (five-story, 95 room, 74,175 sf including 5,772 sf of meeting/conference space in the basement, a 4,439 sf, 140 seat restaurant and bar on the ground floor, and a small swimming pool, deck, and patio on the roof terrace). Access for automobiles and pedestrians was proposed to be via a porte-cochere that opens onto Carrillo Street. Access from the hotel site to and from the parking structure is proposed to be via a new entrance/exit for valet parking staff only. | | |
| 1999061118 | Hollister Hills SVRA General Development Plan Amendment - Hudner and Renz Acquisition Parks and Recreation, Department of Hollister--San Benito The project proposes the potential development of the Hudner and Renz properties to expand the recreational facilities of the Hollister Hills State Vehicular Recreation Area (SVRA). The primary purpose of the Hudner and Renz Acquisitions is to provide additional controlled off Highway Vehicle (OHV) recreational opportunities for the users of Hollister Hills SVRA. Adoption of the Draft General Development Plan Amendent (GDPA) would amend the existing General Development Plan for the existing Hollister Hills SVRA that was adopted in 1978, by including these additional acquisition parcels in the area available for OHV recreation. The Hollister Hills SVRA Draft GDPA, which represents a revised version of the GDPA published in May 1996, provides guidelines for the long-term management and development of the acquisitions. The GDPA describes the resources of acquisition areas, identifies the proposed buffer zones, documents the planning process, identifies policies for proper management and proposes improvements. The plan provides sufficient detail for the OHMVRD to proceed with the projects discussed in the plan, including the construction of trails, picnic areas, camping areas, staging areas and entrances. | NOD | |
| 1999072020 | Capitol Light Rail Project EIR Santa Clara Valley Transportation Authority San Jose--Santa Clara The existing bridge will be replaced with a 126 foot wide structure to accommodate light rail tracks. The removal of the existing bridge and construction of the new bridge will require that work be conducted on the banks of Penitencia Creek at North Capitol Avenue in Santa Clara County. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement Number R3-2000-1432 pursuant to Section 1601 of the (DFGC) to the project operator, Robert Dona / Santa Clara Valley Transportation Authority. | NOD | |
| 1999082006 | Williams Communications, Inc. - Permits for Telephone Line Right of Way Public Utilities Commission Sacramento--Sonoma The applicant proposes to install fiber optic cable from Point Arena to Robbins and from Point Arena to Sacramento. The proposed fiber optic route will bore under or trench through one drainage in Solano County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement #R3-2000-1389 pursuant to Section 1601 of the Fish and Game Code to the project applicant. | NOD | |

| 2001038355 | <p>Northern Pike Netting Activities Fish and Game (HQ) Environmental Services --Plumas</p> <p>The purpose of this memorandum is to clarify the previous September 2000 NOE with additional detail for the Department's conclusion that the level of fish mortalities cause no significant adverse environmental impact to the waters of Lake Davis, and that any fish mortalities that do result from the activities described below are exempt under Class 6 category of the CEQA Guidelines. During the 2000 season, the Department's physical methods to contain and control northern pike included the use of seines, gill nets, and box (trap) nets. The Department also conducted electrofishing to sample fish. In order for the Class 6 categorical exemption to apply, the activity must satisfy three conditions. (14C.C.R. & 15306.) The first and third conditions are not an issue here. The second condition, which is the focus of our discussion, is that the activity must cause no serious or major environmental disturbance. This condition anticipates some physical activity that results in environmental change, but any such changes must be found to be minimal and inconsequential. The September 2000 NOE concluded that, given that the fish population of rainbow trout alone exceeds 1 million, the numbers of fish left to decompose was minimal.</p> | NOE | |

| 2000071113 | Bridge/Box Culvert - Bryant Street at Wildwood Creek Yucaipa, City of Yucaipa--San Bernardino California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (SAA # 6-2001-53) pursuant to Section 1601 of the Fish and Game Code to the project applicant, City of Yucaipa. The applicant proposes to improve two "at-grade" low-water crossings by constructing bridge/box culverts in order to increase the public's safety by alleviating current flooding deficiencies at the two crossings by containing 100-year flood flows. The project includes elevating the existing 64-foot wide "at-grade" low-water crossing of Avenue E within Wilson Creek and elevating the existing 30-foot wide "at-grade" low-water crossing of Bryant Street within Wildwood Creek, which would result in the permanent fill of 0.08 acre (non-vegetated, non-wetland) "waters of the U.S.", which equated to 94-linear feet of impacted streambed. The project is located in the City of Yucaipa in San Bernadino County. | NOD | |
| 2000082141 | Measure A/B Consolidated Biological Mitigation Project Santa Clara Valley Transportation Authority San Jose--Santa Clara The two project sites (referred to as the Tennant Marsh Site and the Riverside Drive Site) are located along Coyote Creek in South San Jose, Santa Clara County. The Tennant Marsh Site is part of the existing Tennant Road Marsh which is located adjacent to the northerly portion of the Coyote Creek Golf Course. Both sites are owned by the Santa Clara County Parks and Recreation Department. The project involves the removal of a noxious weed, giant cane (<i>Arundo donax</i>), as well as the creation and enhancement of wetland, riparian, and shaded riverine aquatic habitat. The project fully compensates for significant biotic impacts associated with publicly-funded transit and highway improvement projects which are being implemented (or are proposed for implementation) in Santa Clara County, California. | NOD | |

Retail sales are not proposed with this application. | NOD | |
| 2001039029 | Twin Creeks Subdivision - Cotati Creek Culvert Project Cotati, City of Cotati--Sonoma Operator, Terry Tremblay of Tremblay Construction, Inc., proposes to construct a subdivision along Cotati Creek near Water Road in Cotati, Sonoma County. The element of the project within the jurisdiction of the Department of Fish and Game is the replacement of an existing 24-inch culvert adjacent Water Road with a larger concrete box culvert. The new culvert will be 3 feet high, 12 feet wide, and 30 feet long. A small quantity of rock rip-rap will be placed at the downstream end of the concrete culvert to dissipate energy and slow the flow of water. Disturbed areas adjacent to the new culvert will be treated hydro-seed, mulch, and straw wattles to control erosion. Five 15-gallon size native oaks will be planted to mitigate the loss of the one 14-inch DBH oak which will be removed to allow culvert construction. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1426 pursuant to Section 1603 of the Fish and Game Code to the project operator, Terry Tremblay/Tremblay Construction, Inc.. | NOD | |

| | Conditional Use Permit Modification are required for this project. | | |
| 2001031121 | Casa Blanca Redevelopment Project, Amendment No. 3 Riverside, City of Riverside--Riverside The proposed action will result in: 1.) Extending the time limit for which the Agency may establish indebtedness to finance redevelopment activities in the Project Area to January 1, 2014; 2.) Extending the time limit in which the Agency may commence eminent domain proceedings within the Project Area to June, 2013; 3.) Updating the Redevelopment Plan Map to reflect recent changes to the General Plan Land Use Diagram. The proposed action will not alter the boundaries of the Project Area. Although no development or construction is proposed at this time, the continued implementation of the Redevelopment Plan is expected to facilitate commercial, industrial/manufacturing, public and residential development in the Project Area in conformance with the Riverside General Plan and the Casa Blanca Community Plan, to address various environmental issues, and to mitigate existing public infrastructure system deficiencies. | Neg | 04/25/2001 |
| 2001031122 | Lone Pine Film Museum Inyo County Planning Department --Inyo The proposed project is for the county to purchase/acquire approximately 1.915 acres of Los Angeles Department of Water and Power land in order to construct the proposed Lone Pine Film History Museum. The newly created parcel for the Museum will be made up of parts of two existing parcels. As the General Plan and the County Zoning Ordinance currently exists, this new parcel will have a split zoning. The front part of the newly created property is zoned C-2-1 O-D (Highway Services and Tourist Commercial - 1.0 acre minimum-Design Review Overlay) and the rear 3/4 of the parcel is zoned OS-40 (Open Space-40 acre minimum). The updated General Plan proposes a PF (Public Facilities) designation for the newly created parcel. After the new General Plan is approved, the Planning Department will process a rezoning on the entire property to an appropriate zoning designation. | Neg | 04/25/2001 |
| 2001031123 | City of Lompoc Facade Grant Improvement Program Lompoc, City of Lompoc--Santa Barbara Grant Program to encourage facade maintenance and improvement within the City's redevelopment zone. | Neg | 04/25/2001 |
| 2001031124 | Proposed Amendment to AVAPCD Rule 1110.2 Antelope Valley Air Pollution Control District Lancaster, Palmdale--Los Angeles Amendments to AVAPCD Rule 1110.2 update emissions limits, record keeping, equipment specifications and provide exemptions for federal non-road engines and ICEs permitted under the California Portable Equipment Restoration Program. Modernizing the provisions of the rule brings the 1994 "electrification concept" rule into line with current AVAPCD goals, policies and procedures. Expired implementation dates are eliminated. Outdated emissions control plans are no longer required. | Neg | 04/25/2001 |

| 2001022030 | Berman Special Permit (SP-00-21) Humboldt County --Humboldt A Special Permit for the removal and clearing of timber and woody vegetation from an approximate 3.5 acre undeveloped parcel. The project consists of: Phase I - timber removal within the building envelope and access driveway through development conducted under a building permit; Phase II - timber removal for areas outside Phase I (contingent upon Special Permit approval). A total of approximately 40-50 second growth redwood trees are proposed to be removed during Phase I and Phase II. Although the timber removal will convert the area of undeveloped forest land to a non-timber use and provide open area for future residential development, much of the remaining area will retain a forested character. | NOD | |
| 2001039035 | PUD-99-01 Lemoine Property Development Pleasanton, City of Pleasanton--Alameda The applicant proposes to culvert portions of three drainages at 4456 Foothill Road, Pleasanton, in order to accommodate road widening and development. Widening of Foothill Road will require replacing approximately 115 feet of stream with 100 feet of 24-inch diameter culvert and headwall. On the northwest corner of the project site two culverts will be constructed, one new and the other replaced. The new culvert will be approximately 45-feet long with a 50-square-foot riprap outfall energy dissipater (10 x 5). The replacement culvert will be approximately 65-feet long with a 50-square-foot riprap outfall energy dissipater (10 x 5). This project also includes planting native riparian trees and shrubs along the top of bank. The trees and shrubs will be maintained and monitored for 5 years, and the applicant will provide a monitoring report to the Department yearly. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1376 pursuant to Section 1603 of the Fish and Game Code to the project operator, Phil Rowe/Delco Builders and Developers. | NOD | |

| 2001022040 | <p>Port Industrial Redevelopment Plan Stockton, City of Stockton--San Joaquin</p> <p>The Redevelopment Plan Area includes the Port of Stockton, along with other industrial land uses, many of which are port-related. There are two residential units within the study area, but no residential areas included. The redevelopment plan for the Port area is being proposed as a tool to be used to eliminate blight in the projection area. This area is in need of infrastructure improvements including, but not limited to storm drainage, roadway reconstruction and widening for industrial traffic, and antiquated fire, drinking water and sewer infrastructure. These infrastructure improvements are vital to the economic revitalization of the Port and surrounding industrial land uses. Although no specific projects are included within the framework of this initial redevelopment plan, it is anticipated that amendments to this plan will be made once specific projects are prioritized and can be financed.</p> | EIR | 05/14/2001 |
| 1993011040 | <p>Amendment to the Merged Tapo Canyon and West End Community Development Project Simi Valley, City of Simi Valley--Ventura</p> <p>The project is to adopt and implement the Redevelopment Project amendment that adds approximately 254.59 acres to the existing Merged Tapo Canyon and West End Community Development Project Area. These 254.9 acres (the "Amendment Area") are the focus of this environmental assessment. Other technical amendments to the existing Redevelopment Project Amendment, including various time limit extensions, also are included in the Project. The Project is proposed by the Community Development Agency for the purpose of alleviating blight and promoting reinvestment in the Amendment Area, housing assistance programs, and other activities.</p> | FIN | |
| 2000052075 | <p>Metro Place Office/Residential Project Sacramento, City of Sacramento--Sacramento</p> <p>The proposed project consists of a high-rise office and residential building, with 33 floors of development rising to 435 feet to the top of the mechanical penthouse, ground floor retail and parking. The project would provide 272,000 square feet of office space, 120 units of residential housing, approximately 22,950 square feet of street level retail, and approximately 1,044 parking spaces.</p> | FIN | |
| 2001012024 | <p>Calera Creek Floodwalls Project Santa Clara Valley Water District Milpitas--Santa Clara</p> <p>The objectives of the project are to provide 100-year flood protection with freeboard consistent with District and Federal Emergency Management Agency policies, provide a maintenance crossing to access the project area, and to protect the California Landing residential development from flooding.</p> | FIN | |

| 2001031139 | Lemoore Water Storage Tank Project Lemoore, City of Lemoore--Kings Construct a 1.5 million gallon ground level steel water storage tank, booster pump station, electrical control systems (including telemetry), piping, site grading, paving and fencing. | JD | 04/30/2001 |
| 1998052052 | Pacific Herring Commercial Fishing Regulations (Commercial Pacific Herring Fishery Regulations) Fish & Game HQ San Francisco, Crescent City--San Francisco, Alameda, ... The proposed project is a body of recommended regulations governing the commercial harvest of herring for roe products, the harvest of herring eggs-on-kelp, and the harvest of herring for fresh food, bait, and pet food. Under existing law, the herring fishery is closely regulated through a catch quota system. Other management options under which the fishery has been conducted and which are available to the Commission include, but are not limited to, a limit on the number of permittees, seasons, gear restrictions, closed fishing areas, and landing and monitoring restrictions. The project objective is to provide optimal management of the Pacific herring resource for its human use and monitoring restrictions. | NOP | 04/30/2001 |
| 2001031137 | Tonner Hills Specific Plan Orange County Brea--Orange The proposed project involves a comprehensive plan to reuse 789.8 acres of land that has been used for oil and gas production for approximately 100 years. The proposed plan involves development of a master-planned community that combines residential, open space, recreational, public/institutional and commercial uses. The plan also incorporates continued operation of oil and gas production facilities. - 508.4 acres (64%) as open space and improved greenbelts and trails; - 191.2 acres (24%) to be developed for up to 914 residential units in up to 8 distinct neighborhoods; - 22.1 acres (3%) to be allocated to oil field related facilities, including the generation of more electrical energy than the project will demand, thereby creating a surplus of energy generation; - 7.1 acres (1%) to be developed as neighborhood parks; - 20.6 acres (2.5%) as collector streets; - 7.7 acres (1%) to be developed as a neighborhood convenience retail center; and - 32.7 acres (4%) of the site has been reserved for public use purposes. | NOP | 04/30/2001 |
| 2001031138 | Orthopaedic Medical Magnet High School Los Angeles Unified School District Los Angeles, City of--Los Angeles Two buildings with a total of 31 classrooms for grades 9-12, in addition to a library, a cafeteria, multipurpose rooms with a stage, administration offices, and other support facilities. The project also includes a lunch shelter, a courtyard with an arcade, two basketball/volleyball courts, and approximately 191 parking spaces. | NOP | 04/30/2001 |
